**4**

Find the Black Castle to get the hologram chalice sticker.

**5**

Return the sticker to the game runner to get your Enchanted Chalice pin.

Quest complete!

# How to play Adventure2600

A quest game at Dragon Con 2019

Adventure2600 is a **COMPLETELY FREE** quest game that is an homage to the 1979 Atari 2600 game, "Adventure," programmed by Warren Robinett.

It's played by finding a series of 'keys' to access the corresponding colored 'castles'. '**Keys**' come in the form of 1" buttons that you will affix to your lanyard or clothing for the duration of the game.

Search for '**castles**,' which are volunteers carrying castle-shaped staffs around Dragon Con. Be quick! The 'castles' may be on the move!

Approach a castle and show the volunteer your corresponding key to receive the next item for your quest. (Example: Yellow Key button at the Yellow Castle staff.)

## COMPLETING THE QUEST

Return to the game runner with the holographic 'chalice' sticker (see other side) to receive your Enchanted Chalice pin. Quest complete!

## FINDING CASTLES

A schedule of castle availability is on the website and updates about the general location of the castles will be posted on Facebook and Twitter, so follow those accounts!
